

Experimental animal house as per IAEC guidelines, approved by CPCSEA guidelines.

Centralised Deionizer water and Distillation units.

Separate A/C Instrument rooms available.

**Following Instruments available:**

PERKIN ELMER Binary HPLC System

Shimadzu Binary HPLC System

Water Isocryotic HPLC System

PERKIN ELMER FT-IR

High speed homogenizer

PERKIN ELMER Double beam spectrophotometer

Rotary flash vacuum evaporator

Langendroff Heart perfusion system

Spectrofluorimeter

Freeze dryer

Bath sonicators

Capsule filling machine

Gel Doc systems

Tablet machine (16 punches)

Multi sample dissolution apparatus

Tablet coating apparatus

Neuro pharmacological screening apparatus

Refrigerated centrifuge

Stability chamber

Flame photometer

Polarimeter

Polorograph

Conductometer
